PROFESSIONAL SUMMARY

Final-year B.E. Computer Science & Engineering student with hands-on experience in full-stack web development using React, Node.js, and Spring Boot. Built production-ready projects including a Smart Agriculture Marketplace and a University Project Management Platform, gaining practical exposure through internships at VCodez and AURA Institute. Seeking a Full Stack Developer role to deliver scalable, user-centric web applications.

INTERNSHIP EXPERIENCE

Full Stack Developer (Python) Intern — VCodez Dec 2024 – Feb 2025

- Developed and deployed 5+ responsive web features using React, HTML, CSS, and JavaScript.
- Improved application load performance by optimising frontend components and reducing render cycles.
- Maintained and updated MySQL/MongoDB databases, ensuring 100% data accuracy.
- Collaborated with a 4-member team using Git for version control and code review.

Java Intern — AURA Institute & Technology May 2026 – Jun 2026

- Built a Smart Agriculture Marketplace using Java, enabling farmers to list and sell products online.
- Implemented core features: product listing, browsing, and purchasing workflows.
- Debugged and optimised backend logic, gaining hands-on Java development experience.

PROJECTS

Smart Aluminium Recovery System — Digital workflow platform for aluminium recovery and sustainable refinement

- Built: Structured digital platform to organise and monitor the aluminium recovery and refinement workflow.
- Tech Stack: React, Node.js, Express, MongoDB, CSS.
- Result: Delivered a systematic workflow system, improving process organisation and recovery efficiency.

Smart Agriculture Marketplace — E-commerce platform connecting farmers directly with consumers for agricultural products

- Built: Product listing, browse & cart, and order management modules with role-based dashboards.
- Tech Stack: React, Java (Springboot), MySQL, CSS.
- Result: Fully functional marketplace with multi-role access (Farmer / Customer / Admin).

ProjectHub — University Project Management Platform — Multi-role platform streamlining final-year project workflow

- Built: Role-specific dashboards, guide allocation, progress tracking, and report submission modules.
- Tech Stack: React, Python (Django), MySQL.
- Result: Centralised real-time status tracking, reducing project coordination effort.

Medicare — Pharmacy Management System — Web application to digitise pharmacy inventory and prescription management

- Built: Inventory tracking, prescription upload, billing, and stock-alert features.
- Tech Stack: React, Python (Django), MySQL.
- Result: Automated inventory updates, eliminating manual stock reconciliation.

EDUCATION

B.E. — Computer Science and Engineering 2023 – 2027

J.N.N Institute of Engineering, Chennai CGPA: 7.41 / 10.0

CERTIFICATIONS & ONLINE COURSES

Java In-Depth: Become a Complete Java Engineer — Infosys 2026

- Skills gained: Core & advanced Java, OOP, collections, exception handling, multithreading.

GitHub Copilot — The Complete Guide — Infosys 2026

- Skills gained: AI-assisted development, prompt engineering, Copilot integration in VS Code.

Python Programming — CodeTantra 2024

- Skills gained: Python fundamentals, data structures, scripting, and problem-solving.

Introduction To Generative AI — IBM SkillsBuild 2025

RELEVANT SKILLS

Programming Languages: Python, Java

Backend: Node.js, Django, Spring Boot

Tools & Platforms: GitHub, VS Code

Frontend: HTML, CSS, JavaScript, React.js

Database: MySQL, MongoDB
